

Prem Jyoti which means Light of Love is a voluntary organization working for the welfare of the disabled children, disabled youngster and poor people. It is founded by Mr. Pawan Kumar and Mrs. Sheela.

OUR VISION

The idea Premjyoti was born on the 4th October 1996, in a small hut with 2 disabled students and today it is striving to bring light into lives that never need be dark again. It was a simple idea, simple in concept and backed with a single mindedness that comes with deep conviction. It was to provide under one roof, as it were rehabilitation or preventive services to the locomotors disabled, hearing impaired & mentally challenged children, Its aim is to inculcate a better understanding of disability among the general students while instilling confidence among children with disability.

HOW YOU CAN HELP

- ✿ by becoming a Premjyoti child sponsor
- ✿ make a donation
- ✿ by sending volunteers to school for giving better ideas to staff.

Your sponsorship will help provide a needy disabled child with the opportunity to go school and become fully alive. You too will feel the joy that comes with knowing that your gift is giving new life to a child.

We have a dream and
you have the power
to make the dream
come true

You can contribute towards a healthy and happy childhood for the disabled children by giving 4750 Rupees for a child for 1 year. You can send your contribution by check/cash in the name of:

When a rose shines
her beauty
does anyone ask
if a leaf is withered?

PREMJYOTI SOCIETY

an integrated school for counselling,
rehabilitation and vocational training for
disabled and abled children

INTEGRATED EDUCATION

Our school educates children from lower kindergarten to class eight, Children follow the normal curriculum of academic studies as outlined by the state of Uttar Pradesh. The school consists of 40 disabled children along with 200 normal children under the guidance of 17 staff members. The integrated education is successfully implanted since last 10 years. Every able child is eager to help out his or her disabled peers. Thus there is lot of confidence in the disabled to face the outside world with courage. Here at Premjyoti, both disabled and able bodied student compete on equal terms whether it is academic, sport, dance, music or vocational skills.

SPECIAL EDUCATION

This relates specifically to students suffering from mental retardation, cerebral palsy and hearing impairment. For them a special curriculum has been designed. A special educator helps them with academic and basic skills such as personal hygiene, dressing, grooming, language skills, gardening, craft, yoga, painting etc. Everyday after gardening they brush and bathe in the school. The special educator makes use of picture, flashcard, live object to impart knowledge to these special students. Unfortunately many such students suffer the fate of being hidden in dark corners by ashamed and ignorant families.

COMMUNITY BASED REHABILITATION PROGRAMME

We believe family involvement is an essential part of the recovery process. We remain in touch with the children families discussing medical conditions, need for surgery, education as well as providing them with counselling and support. We hold camps in different villages and invite qualified personalities from the medical profession to counsel the villagers. We help disabled undergo surgery free of cost and to get aids and appliances. Up to now we helped 68 cases for free surgery. We teach the parents to do simple physiotherapy at home for the disabled children.

VOCATIONAL TRAINING

We provide our students with the opportunity to learn different craft to equip them with the skills to learn a living. At present they learn tailoring, embroidery, candle making, weaving, book binding, making card, gardening. We have a special tailoring class for disabled children.

MEDICAL CAMP

Premjyoti is very much involved in the medical care of children, Medical aid is given to all children who fall sick or are injured. We organize health check-up camps every year for the school students and outsiders. Spastic and physically handicapped students undergo physiotherapy.

LIBRARY

A man is known by the company he keeps. And what best company he can have than that of good books. It is said that a good library is the heart of the school. Keeping all this in mind we have small library having story books, books of general knowledge etc. Every day the students spend 45 minutes in the library.

CHILDREN'S CLUB

Our students "Bal Manch" was established on 8 March 2005. It was formed by 14 of our junior high school students to help the aged. Every month they give some money from their pocket moneys and motivate other children to help them. They give out grains, medicines and clothes to old people.

HOSTEL FACILITIES

We give hostel facilities to disabled children who come for corrective surgery or any other treatment from distant villages or districts. We keep them till they get cured. We are planning to give hostel facilities to both disabled and able orphan children who are interested in studies but due to poverty they can not attend school.

FUTURE PLANS

- ♥ To set up a vocational training unit. Right now we are having it in a small room
- ♥ Completion of the incomplete class room
- ♥ Focus on empowerment of women with disabilities in rural area
- ♥ To set up a home for the abandoned mentally challenged children.
- ♥ To set up an orthopedic workshop unit.
- ♥ To achieve all the above said we need great help from people like you. Ours is a small NGO run with the donations received from friends and well wishers.
